Bethel - Yukon Kuskowkim Fitness Center Gym and Track

Project Sponsor(s):
Senator Hoffman**House District: 38 / S****FY2022 State Funding Request: \$10,000,000**
One-Time Need**Brief Project Description:**

Design and construction of gymnasium and track to be attached to City's YK Fitness Center.

Funding Plan:

Total Project Cost:	\$10,000,000
Funding Already Secured:	(\$0)
FY2022 State Funding Request:	<u>(\$10,000,000)</u>
Project Deficit:	\$0
<i>Funding Details:</i>	
<i>No funding history.</i>	

Detailed Project Description and Justification:

The Yukon Kuskowkim Fitness Center Gym and Track project requires the design and construction of a commercial gymnasium with indoor running track and climbing walls. The gym would be large enough for six basketball nets, climbing walls or a climbing corner. The new facility would be attached to the City's YK Fitness Center that currently has a pool, weight and exercise machine room, and open room for ballet, spin bikes, karate, and other activities. Architects Alaska, Inc. designed the YK Fitness Center with the intention of constructing a gymnasium years later. As a result, the boilers and air system in current facility are large enough to accommodate the new gym space.

The community of Bethel needs more gym space. The three gyms found in public schools are occupied during the school year to such a degree that little to no time is available for public non-school use. The former National Guard Armory gym has been closed for year due to an unstable foundation and rotting floor joists. The building was finally torn down.

Adults in the community strongly support an open gym for basketball leagues, volleyball, jogging, family play, and school sports practice. The City of Bethel is willing and able to own and operate this facility.

Project Timeline:

August 15, 2021 - City and State sign grant agreement.
September 30, 2021 - City engineer firm, DOWL, begins design of gym.
December 10, 2021 - 65% design completed.
January 31, 2022 - 95% of design completed.
February 1 - March 2, 2022 - City goes out to bid to hire contractor to build gym.
March 9, 2022 - City Council approves construction contract.
March 10, 2021 to October 31, 2022 - Contractor builds gymnasium with track.
